1. POLICY

a. NPD 1050.1 provides authority and guidance for Reimbursable, Nonreimbursable, and International Agreements as authorized by the National Aeronautics and Space Administration (NASA), John C. Stennis Space Center (SSC). NPD 1050.1, paragraph 5.a, authorizes Directors of NASA Centers to negotiate, execute, amend, and terminate: (i) Reimbursable and Nonreimbursable Agreements with any U.S. domestic entity to include other Federal Agencies; and (ii) No authority is delegated to the Center for any International Agreements.

b. All agreements shall comply with applicable directives and requirements established by applicable law, regulations, Executive Orders, and NASA and SSC directives. In the event of a conflict, the source statute (typically referenced as a United States Code (U.S.C.) citation), always takes precedence. Following that, Federal regulations (typically found and cited as Code of Federal Regulations (C.F.R.) provision) take precedence over Executive Orders, which take precedence over NASA directives. Any perceived conflicts should be referred to the Office of Chief Counsel for their review and recommendation.

c. All agreements and agreement modifications generated at SSC shall follow an established process for their creation, approval, and management.

d. The agreement process developed by NASA SSC for internal use shall comply with this directive and NAIL 1050.1C, Space Act Agreement Manual.

e. Fairness and consistency are important in guiding the initiation and execution of all Space Act Agreements (SAAs). The Standards of Ethical Conduct for Employees of the Executive Branch require that all NASA employees act impartially and that preferential treatment shall not be given to any private organization or individual.

2. APPLICABILITY

a. This Stennis Policy Directive (SPD) is applicable to all NASA SSC personnel.

b. This SPD governs all SAAs between SSC and domestic governmental and nongovernmental entities. Agreements with foreign governments or international entities shall be coordinated with the SSC Office of Chief Counsel for referral to NASA Headquarters (HQ) for execution pursuant to NASA Policy Directive (NPD) 1050.1, Authority to Enter into Space Act Agreements.

3. AUTHORITY

b. NASA Policy Directive (NPD) 1050.1, Authority to Enter Into Space Act Agreements.

4. APPLICABLE DOCUMENTS

a. NASA Advisory Implementing Instruction (NAII) 1050-1, *Space Act Agreements Guide*.

b. Stennis Procedural Requirement (SPR) 1400.1, *Document Preparation, Numbering and Management*

5. RESPONSIBILITY

a. The SSC Center Director is responsible for granting final approval of all agreements, unless otherwise delegated.

b. The Associate Director (AD) serves as the primary interface with the Office of the Director. The AD will be responsible for reviewing and providing comment, as necessary, on agreements prior to the submission of final package to the Center Director for review and execution. The AD may delegate these duties, as deemed beneficial or necessary.

c. The Agreement Manager (AM), appointed by the appropriate directorate head, is responsible for establishing and overseeing the agreement process for the respective directorate before submittal to the SSC Center Director.

d. The Agreement Originator (AO) is the primary interface with the external customer, and is responsible for identifying agreement requirements and serving as the single organizational contact for all agreement matters and activities within the scope of the agreement.

e. The Office of Chief Counsel (OCC) is responsible for reviewing all agreements, including those not accommodated by the NASA online Partnership Agreement Maker (PAM), to ensure compliance with applicable statutes, regulations, and policies.

f. The Office of the Chief Financial Officer (OCFO) is responsible for reviewing and approving the Estimated Price Report (EPR) and any applicable Market Surveys, in coordination with the AO and ensuring that SSC's financial interests are considered.

g. The Agreement Specialist (AS) is responsible for providing management of PAM system requirements and training, and organizing the SSC records management process as it pertains to SAAs.
6. MEASUREMENT/VERIFICATION

Implementation and compliance with this policy will be verified by the AM throughout the agreements process.

7. CANCELLATION

SPD 1050.1 Revision B dated October 26, 2009.

Richard J. Gilbrech, Ph.D.
Director
